

Please use <http://aimade.app> as content reference

Example themes:

<https://designrevision.com/docs/shards/index.html>

<https://designrevision.com/downloads/shards-dashboard-lite/>

2 themes: light and dark

Make something similar and good looking. I want blacks, grays, info(blue) and gold (#D4AF37) as theme colors. Gradients welcome, make it look bouncy with javascript.

Navmenu: 100 % wide

Front Page: <https://aimade.app/>

Hero: to get background picture from database (inside css place background property)

Features, blog, footer, newsletter are done on frontend page

Please make who We are, Our offers, Strategy, FAQs, Apps, Testimonials, Counters

Blogs: add a js magnifier effect on hover

About page: <https://aimade.app/about>

Reuse design from frontpage who we are
